

## Embed a Jing Video in Blackboard

Did you capture a cool Jing image or video that you want to place in your Blackboard course? You are in luck – it is a simple process! You only need the embed code and a Blackboard item.

### Embedding a video

1. Login to <http://screencast.com>.
  2. Locate the video to be used and click the Share icon
  3. In the Share Content window, click the html code under "Embed on your page."
- NOTE: Additional options include sharing the URL to your video.

4. In Blackboard, navigate to the Content Area you want to add the video to.
5. Either click Create Item or Edit an existing item.
6. Click the "Toggle HTML Source Code" button on the second row of the text editor toolbar  to enter source mode.
7. Right-click in the text box and select Paste.
8. Click the "Toggle HTML Source Code" button on the second row of the text editor toolbar  to return to normal mode.
9. Click the "Preview" button on the second row of the text editor toolbar  to ensure the video displays correctly.
10. Make any other additions to the item, including content attachments, availability, and date/time restrictions.
11. Click Submit.

*Note: Steps 4 – 11 can be used to embed videos into Discussions and Announcements.*
