

SYNC YOUR SOCIAL NETWORKS IN ZOOLOO

1. Once your ZooLoo account is created, go to the “View Your Network Updates” area (on the “Home” page):

Now, OneMaricopa has a Twitter account, so I’m going to click the “Twitter” tab and then click the “Authenticate ZooLoo” button:

Twitter is now going to verify that I really want ZooLoo to have access to my information – I’m going to click “Allow”:

2. That’s it! OneMaricopa’s ZooLoo and Twitter accounts are now connected. Now just follow the same procedure for any of your other social networks (Facebook, LinkedIn, MySpace . . .).
